them cigarettes.

The four convicts who seized an
estimated 26 to 28 visitors, three
guards and 11 other convicts Monday
are Richard A. Murray, 20;
Donald DeCourcey, 22; Robert F.
Jasmin, 22 and David K. Owens, 19.

They listed no grievances, asking
only for an escape car and the guards held as hostages were
given access to the Canadian border.

One of the officer hostages,
Hugh Dewalt, said the convicts
threatened they would throw them
out of the window dead if their
demands for freedom were not
met by 6 a.m.

One of the most touching scenes
of the rescue came when Mrs.
Marlene Oxford, of Kelso, Wash.,
was reunited with her son, Bobby,

Mrs. Oxford was visiting her
husband, one of the inmate hostages.
She was released Monday night when
she became severely ill.

Several of the inmate hostages
were taken to the reformatory hospital
for treatment. The four convicts
who attempted the escape
were taken to another section of
the prison under heavy guard. No
one was permitted to see them or
talk with them.

5 Escapees at Pine Bluff Taken

PINE BLUFF, Ark. (AP) —

Police captured five escapees from

the grounds, however, waiting for the
release of her son.

Mrs. Oxford said: "They were
pretty decent, those fellows who
held us. They got the kids milk."

She said the women and children
were not threatened although
the guards held as hostages were
given access to the Canadian border.

One of the officer hostages,
Hugh Dewalt, said the convicts
threatened they would throw them
out of the window dead if their
demands for freedom were not
met by 6 a.m.

He said however, he did not believe
any of them were seriously
injured. His first worry was for
the women and children.

game. I didn't want people to say if he was ready to play Sunday then why not now?

There were no known casualties on the power-laden National League squad that had such home run swatters as Eddie Mathews, Hank Aaron, Willie Mays, Ernie Banks and Orlando Cepeda hitting second, third, fourth, fifth and sixth. This quintet owns a total of 101 home runs.

There is nothing puny about the American League batting order which begins with Miami Minoso, a 13-homer man and has Harmon Killebrew, the league's leading home run and runs batted in man (28-70) batting seventh.

In between, the National League pitchers had to face Nellie Fox, Kaline, Bill Skowron, Rocky Colavito and Gus Triandos. Chicago's fleet-footed shortstop, Luis Aparicio, was the eighth batter in the lineup. Johnny Temple, Cincinnati's fine second baseman, was the NL's leadoff hitter. Wally Moon, Del Crandall and Don Drysdale, selected by Manager Fred Haney as his starting pitcher, represented the lower third of the order.

Love at First Sight
Deserves Another Look

Dear Dorothy Dix: Barry and I met a year ago and it was a good marriage. You'll be together in love at first sight for both of us. Since then, we've been constantly together. We eat lunch, share our rest period, travel to and from work, then he visits it our house over weekends. We want to get married at Christmas, but he's only 20 and his father won't sign for him. His older brother married at 18. The marriage was a mistake and they are separated. Barry's father thinks a friend who has been my pal may be equally unfortunate since kindergarten. We're now in though, of course, we won't. I'm in junior high. Her parents are accepted as a member of the rich side and suddenly she family by Barry's folks. They are has acquired the notion that this all very kind to me and do count entitles her to certain privileges less nice things for me. However, such as having her own way in since Barry's Dad delivered his everything, I'd still like to be ultimate, my best and I don't see these get along as well as we used to.

THIS, TOO, IS TEXAS EASTERN

**Measurement Men
Keep Sharp Eye On
Texas Eastern Gas**

Texas Eastern Measurement Department men keep a sharp-eyed watch on the natural gas we pipe—constantly testing to keep quality high and quantities accurate.

This is no small job. In a year we move more than 600 billion cubic feet of gas. All of it has to pass a series of quality control analyses before it goes into the lines of our customers—distributors in Eastern Seaboard, Appalachian and Midwestern states.

Quality of the gas—how clean and efficiently it burns—is determined by the correct balance of fourteen chemical compounds normally found in it—and by the absence of one that is highly undesirable: hydrogen sulfide. Other tests measure the moisture content of the gas and its specific gravity.

A close watch, too, is kept on the all-important heating quality of the gas. Much higher than manufactured gas, Texas Eastern's natural gas has a heat content of about 1040 BTU per cubic foot.

And—as if the quality control job weren't enough—Measurement Men account for every cubic foot of gas that goes through the system...all 6100 miles of it, stretching from the Mexican border to the Northeast Coast. Gas is taken into the system at over 499 purchasing points located in the gas producing areas and checked out at more than 100 sales stations, located largely in Midwestern, Appalachian and Eastern Seaboard states.

A cubic foot of natural gas that whooshes out of a wellhead in Texas on a 90-degree day is a lot different in content from a cubic foot that moves through a metering point in New Jersey on a freezing day.

So, to equate the gas handled under varying temperatures and pressures, the Measurement Men use a mathematical formula that corrects for the temperature and pressure and lets us know exactly how much gas—measured in volume—we have taken into the system and how much we have sold.

All in all, Texas Eastern's Measurement Men do a king-size job of assuring the customers of a continuing supply of clean natural gas that will keep them happily cooking with gas for a long time to come.

This is one of a series of monthly reports on the diversified activities of Texas Eastern Transmission Corporation.

Dear F.R.: Every woman has to adjust to her husband's idiosyncrasies if she is to have a peaceful marriage. Every husband has to take his wife's faults

in stride. (I.O.) Be thankful your mate doesn't have a really major fault like drinking. The next time he loses something, tell him you'll find it, but not until heimmers down instead of boiling over.
